Philips DVP3360_12

- "1 sec. srt bug" fixed.
 - Patch subtitle area and move subtitles in a "better" position.
 - Patch subtitle color. White subtitle with black outline.
 - 4 fonts for subtitles. (small, standard, medium and large)
 - auto-load subtitles.
 - Up to 46 char. in filebrowser (CD/DVD and USB).
 - Show extension for files.
 - New wordwrap and reformat, better, not perfect.
 - Vertical position for subtitles. 16 levels.
 - Add "Romanian" language for DVD.
 - **GoTo (Time Search)**. Press "Title/Back" twice and enter h:mm:ss to jump (first time display "Select", second press display "GoTo")
 - Volume stored!
 - Option to change color for subtitles. Change color for text, outline, background.
 - Option for transparent background, work when background is non-transparent.
 - Slideshow option. Now you can turn on/off, set transition speed and duration.
 - Load ORG. Then All. Options: "Load original than all" , "All Subtitles" (first 10) and "Matching name".
- IMPORTANT:** Use this version only if you don't use ssa or smi subtitles. **This version is 5_1.**

Instruction for upgrading [HERE](#)

Version for CP 1250, 1251, 1252, 1253 and 1254 (CP = [Code Page](#))

Note: For first update or if you have problems with subtitles after update, make this steps:

- Install first original firmware from Philips [dvp3360_12_fus_eng.zip](#)
- Install this pre-version [DVP3360_12_vb6_1.rar](#)
- After each update power off player.

Important: After update, change font and color to activate new option for subtitles. For slideshow options, change several times settings(on/off, transition and delay) to activate new options.

NikolasZ say:

I see big improvements of video quality of tv shows, but those videos lags.
It looks like slow cpu for decoding videos?
Thursday, 9 August,2012 16.58

Claudio say:

To NikolasZ: If you experience problems with abrupt stops of some videos, check out the program with which it has been encoded (divx for example).

For such videos I just re-encoded them with VirtualDub and then I could watch them without problems.

NikolasZ say:

1 bug here, this i test all known firmwares and movie cannot play like more then 1.19 minutes while movie size is more then 1-2gigabyte big.

Some guy complain here too.
